

NE 53rd Street Sewer Main Replacement Project

Public Notice

August 2012

Planning

Design

Construction

Complete

What: The NE 53rd Street Sewer Main Replacement Project replaces the existing sewer line in NE 53rd Street from the middle of 108th Avenue NE east to the intersection at 111th Avenue NE. The project also replaces the 25-foot deep sewer manhole in 108th Avenue NE. See map on reverse side.

Why: This stretch of sewer pipe is part of an aging system which is undersized and past its expected life span. Existing root intrusion and groundwater flow into the sewer pipe requires more maintenance. The manhole at the intersection of 108th Avenue NE is undersized, doesn't meet current standards, and requires replacement for access and safety reasons.

A typical sewer manhole installation

When: Construction is expected to begin Tuesday, August 14. A complete road and intersection closure is planned (see the reverse side for detour route information along with dates). Generally, the construction phase is anticipated to take up to three months with completion at the end of November. Typical hours of construction will be 7 a.m. to 5 p.m., Monday through Friday; extended hours and weekend work may be approved to reduce traffic impacts. Many factors, including weather, could influence the project and its schedule. Check the City's web site for possible changes or updates www.kirklandwa.gov (search 53rd Street).

What to expect:

Traffic impacts – [a complete closure of 108th Avenue NE at NE 53rd Street in all directions is scheduled in order to install the 25-foot deep manhole. The closure is scheduled to occur Tuesday, August 14 through Friday, August 24.](#) Local access will be maintained for neighborhood residents, but regional traffic will be detoured. See map on reverse side. After 108th Avenue NE is reopened, drivers should expect delays on NE 53rd Street while sewer main line construction continues. Flaggers will direct traffic through the work zone; and signed detours will be in place.

Emergency vehicle access - access for emergency vehicles will be maintained throughout construction.

After hours - the contractor is required to fence their excavation areas, backfill trenches and/or cover their work at the end of each day to assure work zone safety.

For more information on the project/ Para más información:

Contact Kari Page, Neighborhood Outreach Coordinator, KPage@kirklandwa.gov, or 425-587-3011.

Or contact Don Anderson, Project Engineer, DAnderson@kirklandwa.gov, or 425-587-3826.

Visit our project web site: go to www.kirklandwa.gov and search 53rd Street. Or, call the construction hotline for updates: (425) 587-3838. Alternative formats available/711 (TTY Relay).
